2. No boats should be left on docks overnight except in an emergency and then only with permission of the Dockmaster.
3. Any boat violating docking regulations will be towed away at the owner's risk and expense.
4. When docking, boats should proceed up current and secure as far as possible on the current end of the dock, leaving room for other boats to come in astern.
5. The speed limit in the mooring and dock area is 5 MPH maximum. This rule will be strictly enforced. The Dockmaster or his/her designee on duty has complete control.

Dock Wait List and Dock Assignment Policy . (Adopted by BOG on 2_15_17)

Wait Lists For All Four Sections of Docks: Separate Wait Lists exist for all four sections of docks (North, Mid, South, Inside South). Every member has the right to have his/her name on each of these lists. There is currently a wait list for all sections of docks. These lists will be posted annually by the Dock Master or designee. The lists will be posted in the club house once it's finalized for all to view.

Policy:

1) On or about May 15th each year the Dock Master or designee will notify the next person on a wait list of an opening at a specific slip. That person has a choice to take that slip or pass on it. If that person chooses to pass on a slip within that section of dock two seasons in a row his/her name will go to the bottom of that specific dock list. The Dock Master or designee will then work his/her way down the wait list until it is filled. Two emails and two phone calls will be made to those on the wait lists for confirmation if you accept or reject the assigned slip. If there is no response within 72 hours the next person will be contacted. (It is important to keep the Commodore and Dock Master updated if your contact information changes. This is a very time consuming process.

2) If the slip is accepted and the member has a boat they must have the boat in the slip within 30 days of the acceptance date. If the member does not have their boat in the slip by this date, permission to delay must be approved from the Dock Master. If not, the slip will be offered to the next person on the wait list to sublet for that year only.

3) If a person chooses to take the slip offered, but does not have a boat, he/she has one full season to purchase a boat and have it in that slip by May 30th the year following acceptance of the slip. The boat must be registered in the slip renter's name. (A copy of the registration may be requested to verify ownership). If by May 30th of that second season the slip renter does not have a registered boat they will lose that slip and go to the bottom of the list. Requests for an extension may be granted by the Dock Master for special circumstances.

4) If a member takes that slip and does not have a boat the Dock Master reserves the right to sublet the slip @ \$40.00/month to be paid to the assigned slip renter. This subletting will occur by the Dock Master through the wait lists for that section of dock. This will only occur for the first season you are assigned the slip. If the renter does not have a boat by May 30th the following season the slip will be offered to the next person on the list. The person who initially rented the slip will then go to the bottom of that list. If no member who is currently on the wait list is interested in subletting, then and only then, may the renter sublet or let someone not on the wait lists use the slip. The Dock Master needs to be notified if this occurs and any sublet fee must be less than or equal to the slip fee charged by the club.

5) Prior to assignments of open slips, members who are already assigned to that section of dock will be given first preference to change their slip. This request must be sent to the Dock Master in writing via email to ensure transparency. The requests will be documented in the order in which the Dock Master receives the request. This list will be maintained by the Dock Master.

12. Effective January 1, 2016 no boat that is longer than 22' or wider than 8' will be eligible for a slip assignment at the PVYC. The recommended boat size is no larger than 20'x8'. Members as of the 2015 season who have a larger boat and an assigned slip are grandfathered as long as they continue to own that boat. .
(Adopted by BOG on 8/10/15)

13. Members using the club dingy must return it to its proper area immediately after use. Members cannot leave the club dingy on their mooring. Oars must be returned to the locker room at the end of the day. **DO NOT LEAVE THEM IN THE DINGY.**
